
CANSTAR RESOURCES INC.
(A Development Stage Enterprise)

INTERIM FINANCIAL STATEMENTS

FOR THE THREE AND SIX MONTHS ENDED
DECEMBER 31, 2010

(UNAUDITED)

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying unaudited interim financial statements of Canstar Resources Inc. (A Development Stage Enterprise) were prepared by management in accordance with Canadian generally accepted accounting principles. The most significant of these accounting principles have been set out in the June 30, 2010 audited financial statements. Only changes in accounting policies have been disclosed in these unaudited interim financial statements. Management acknowledges responsibility for the preparation and presentation of the unaudited interim financial statements, including responsibility for significant accounting judgments and estimates and the choice of accounting principles and methods that are appropriate to the Company's circumstances.

Management has established processes, which are in place to provide them sufficient knowledge to support management representations that they have exercised reasonable diligence that (i) the unaudited interim financial statements do not contain any untrue statement of material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it is made, as of the date of and for the periods presented by the unaudited interim financial statements and (ii) the unaudited interim financial statements fairly present in all material respects the financial condition, results of operations and cash flows of the Company, as of the date of and for the periods presented by the unaudited interim financial statements.

The Board of Directors is responsible for reviewing and approving the unaudited interim financial statements together with other financial information of the Company and for ensuring that management fulfills its financial reporting responsibilities. An Audit Committee assists the Board of Directors in fulfilling this responsibility. The Audit Committee meets with management to review the financial reporting process and the unaudited interim financial statements together with other financial information of the Company. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the unaudited interim financial statements together with other financial information of the Company for issuance to the shareholders.

Management recognizes its responsibility for conducting the Company's affairs in compliance with established financial standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

NOTICE TO READER

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the interim financial statements, they must be accompanied by a notice indicating that the interim financial statements have not been reviewed by an auditor.

The accompanying unaudited interim financial statements of the Company have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these interim financial statements in accordance with standards established by the Canadian Institute of Chartered Accountants for a review of interim financial statements by an entity's auditor.

The accompanying notes are an integral part of these unaudited interim financial statements

(Unaudited)

1. NATURE OF OPERATIONS AND GOING CONCERN

Canstar Resources Inc. (the "Company" or "Canstar") is in the development stage as defined by the Canadian Institute of Chartered Accountants ("CICA") Accounting Guideline 11 "Enterprises in the Development Stage", as it is in the process of exploring its mineral properties and has not yet determined whether these properties contain ore reserves that are economically recoverable. The recoverability of the carrying values of mineral properties is dependent upon the discovery of economically recoverable reserves, the preservation of the Company's interest in the underlying mineral claims, the ability of the Company to obtain financing necessary to complete development of the properties, and the future profitable production therefrom or alternatively upon the Company's ability to dispose of its interests on an advantageous basis.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements and non-compliance with regulatory requirements.

As at December 31, 2010, the Company had a deficit of \$8,317,610 and a working capital of \$289,719. The Company's ability to continue operations and fund its future exploration property expenditures is dependent on management's ability to secure additional financing. Management is actively pursuing such additional sources of financing, and while it has been successful in doing so in the past, there can be no assurance it will be able to do so in the future. Because of this uncertainty there is some doubt about the ability of the Company to continue as a going concern. These financial statements do not include the adjustments that would be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

2. BASIS OF PRESENTATION AND ACCOUNTING POLICIES

These unaudited interim financial statements have been prepared in accordance with Canadian generally accepted accounting principles for interim financial information. Accordingly, they do not include all of the information and notes to the financial statements required by Canadian generally accepted accounting principles for annual financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six months ended December 31, 2010 may not necessarily be indicative of the results that may be expected for the year ending June 30, 2011.

The balance sheet at June 30, 2010 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by Canadian generally accepted accounting principles for complete financial statements. The interim financial statements have been prepared by management in accordance with the accounting policies described in the Company's annual financial statements for the year ended June 30, 2010, except as noted below. For further information, refer to the audited financial statements and notes thereto for the year ended June 30, 2010.

(Unaudited)

2. BASIS OF PRESENTATION AND ACCOUNTING POLICIES (Continued)

Future Accounting Changes

(i) International Financial Reporting Standards ("IFRS")

In January 2006, the CICA's Accounting Standards Board ("AcSB") formally adopted the strategy of replacing Canadian GAAP with IFRS for Canadian enterprises with public accountability. On February 13, 2008 the AcSB confirmed that the use of IFRS will be required in 2011 for publicly accountable profit oriented enterprises. For these entities, IFRS will be required for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2011. Companies will be required to provide IFRS comparative information for the previous fiscal year. Accordingly, the conversion from Canadian GAAP to IFRS will be applicable to the Company's reporting for the first quarter of fiscal 2012 for which the current and comparative information will be prepared under IFRS. The Company is required to apply all of those IFRS standards which are effective for the fiscal year ending June 30, 2012 and apply them to its opening July 1, 2010 balance sheet. While the Company has begun assessing the impact of the adoption of IFRS on its financial statements, the financial reporting impact of the transition to IFRS cannot be reasonably estimated at this time.

(ii) Business Combinations

CICA Handbook Section 1582 "Business Combinations", replaces Section 1581 -"Business Combinations" and provides the Canadian equivalent to IFRS 3 - Business Combinations. This applies to a transaction in which the acquirer obtains control of one or more businesses. Most assets acquired and liabilities assumed, including contingent liabilities that are considered to be improbable, will be measured at fair value. Any interest in the acquiree owned prior to obtaining control will be remeasured at fair value at the acquisition date, eliminating the need for guidance on step acquisitions. Additionally, a bargain purchase will result in recognition of a gain and acquisition costs must be expensed. The Company will adopt this standard on July 1, 2011. The Company is currently evaluating the impact on its financial statements.

(iii) Consolidations and Non-Controlling Interests

CICA Handbook Section 1601 "Consolidations" and Section 1602 "Non-Controlling Interests" replace Section 1600 "Consolidated Financial Statements". Section 1602 provides the Canadian equivalent to International Accounting Standard 27 - "Consolidated and Separate Financial Statements", for non-controlling interests. The Company will adopt this standard on July 1, 2011. The Company is currently evaluating the impact on its financial statements.

Notes to Interim Financial Statements
Three and Six Months Ended December 31, 2010
(Expressed in Canadian Dollars)
(Prepared by Management)
(Unaudited)

3. CAPITAL MANAGEMENT

The Company manages its capital with the following objectives:

- to ensure sufficient financial flexibility to achieve the ongoing business objectives including funding of future growth opportunities, and pursuit of accretive acquisitions; and
- to maximize shareholder return through enhancing the share value.

The Company monitors its capital structure and makes adjustments according to market conditions in an effort to meet its objectives given the current outlook of the business and industry in general. The Company may manage its capital structure by issuing new shares, repurchasing outstanding shares, adjusting capital spending, or disposing of assets. The capital structure is reviewed by Management and the Board of Directors on an ongoing basis.

The Company considers its capital to be equity, comprising share capital, warrants, contributed surplus and deficit which at December 31, 2010 totaled \$1,192,180 (June 30, 2010 - \$724,455).

The Company manages capital through its financial and operational forecasting processes. The Company reviews its working capital and forecasts its future cash flows based on operating expenditures, and other investing and financing activities. The forecast is regularly updated based on activities related to its mineral properties. Selected information is frequently provided to the Board of Directors of the Company. The Company's capital management objectives, policies and processes have remained unchanged during the three and six months ended December 31, 2010. The Company is not subject to external capital requirements.

4. FINANCIAL RISK FACTORS

(a) Fair Value of Financial Instruments

Canadian generally accepted accounting principles require that the Company disclose information about the fair value of its financial assets and liabilities. Fair value estimates are made at the balance sheet date based on relevant market information and information about the financial instrument. These estimates are subjective in nature and involve uncertainties in significant matters of judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect these estimates.

The carrying amounts for amounts receivable and accounts payable and accrued liabilities on the balance sheets, approximate fair market value because of the limited term of these instruments.

Canstar Resources Inc.
(A Development Stage Enterprise)
Notes to Interim Financial Statements
Three and Six Months Ended December 31, 2010
(Expressed in Canadian Dollars)
(Prepared by Management)
(Unaudited)

4. FINANCIAL RISK FACTORS (Continued)

(b) Financial Risk Factors

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

(i) Credit risk

The Company's credit risk is primarily attributable to cash and receivables included in amounts receivables and prepaid expenses. The Company has no significant concentration of credit risk arising from operations. Financial instruments included in amounts receivables and prepaid expenses consist of goods and services tax due from the Federal Government of Canada. Management believes that the credit risk concentration with respect to financial instruments included in amounts receivables and prepaid expenses is remote.

(ii) Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at December 31, 2010, the Company had a cash balance of \$480,979 (June 30, 2010 - \$172,808) to settle current liabilities of \$330,860 (June 30, 2010 - \$349,041). The Company's ability to continue operations and fund its exploration property expenditures is dependent on management's ability to secure additional financing. Management is continuing to pursue various financing initiatives in order to provide sufficient cash flow to finance operations as well as funding its exploration expenditures. \$202,979 of the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms. The remaining \$127,881 relates to the accrual in relation to the exploration expenditures discussed in Note 10(b) of the audited June 30, 2010 financial statements. The Company is uncertain when and how much of these funds will need to be paid.

(iii) Interest rate risk

The Company has cash balances subject to nominal interest. Management does not believe the Company is exposed to significant interest rate risk.

(iv) Foreign currency risk

The Company's functional currency is the Canadian dollar and major purchases are transacted in Canadian dollars. The Company is not exposed to foreign exchange risk.

(v) Price risk

The Company is exposed to price risk with respect to commodity prices. The Company closely monitors commodity prices to determine the appropriate course of action to be taken by the Company.

Canstar Resources Inc.
(A Development Stage Enterprise)
Notes to Interim Financial Statements
Three and Six Months Ended December 31, 2010
(Expressed in Canadian Dollars)
(Prepared by Management)
(Unaudited)

4. FINANCIAL RISK FACTORS (Continued)

(c) Sensitivity Analysis

The Company has designated its cash as held-for-trading, which is measured at fair value. Financial instruments included in amounts receivables and prepaid expenses are classified as loans and receivables, which are measured at amortized cost. Marketable securities are designated as available-for-sale, which are measured at fair value. Accounts payable and accrued liabilities are classified as other financial liabilities, which are measured at amortized cost.

As at December 31, 2010, the carrying and fair value amounts of the Company's financial instruments are approximately the same.

Based on management's knowledge and experience in the financial markets, the Company believes the following movements are "reasonably possible" over a six-month period:

Cash is invested in a Canadian chartered bank or a financial institution controlled by a Canadian chartered bank. Sensitivity to a plus or minus 1% change in rates, based on the current balance of cash, would affect the net loss by plus or minus \$2,400 during a six month period.

The Company's investment in marketable securities is subject to fair value fluctuation. As at December 31, 2010, if the fair value of the Company's marketable securities had decreased/increased by 10% with all other variables held constant, comprehensive loss for the three and six months ended December 31, 2010 would have been approximately \$13,000 higher/lower. Similarly, as at December 31, 2010, reported shareholder's equity would have been approximately \$13,000 lower/higher as a result of a 10% decrease/increase in the fair value of the Company's investment in mineral exploration company.

The Company does not hold significant balances in foreign currencies to give rise to exposure to foreign exchange risk.

Fair Value Hierarchy

The following summarizes the methods and assumptions used in estimating the fair value of the Company's financial instruments where measurement is required. The fair value of short-term financial instruments approximates their carrying amounts due to the relatively short period to maturity. These include cash and cash equivalents. Fair value amounts represent point-in-time estimates and may not reflect fair value in the future. The measurements are subjective in nature, involve uncertainties and are a matter of significant judgment. The methods and assumptions used to develop fair value measurements, for those financial instruments where fair value is recognized in the balance sheet, have been prioritized into three levels as per the fair value hierarchy included in GAAP. Level one includes quoted prices (unadjusted) in active markets for identical assets or liabilities. Level two includes inputs that are observable other than quoted prices included in level one. Level three includes inputs that are not based on observable market data.

	Level 1	Level 2	Level 3	Total
Cash and cash equivalents	\$ 480,979	\$ -	\$ -	\$ 480,979
Marketable securities	\$ 130,000	\$ -	\$ -	\$ 130,000

5. INTEREST IN MINERAL PROPERTIES AND DEFERRED EXPLORATION EXPENDITURES

On a quarterly basis, management of the Company reviews interests in mineral properties and deferred exploration expenditures to ensure expenditures include only costs and projects that are eligible for capitalization. As of December 31, 2010, the Company's interests in mineral properties and deferred exploration expenditures consisted of the following:

	June 30, 2010	Additions	Option Payments	Write-off	December 31, 2010
Slate Bay Property (i)	\$ 202,561	\$ -	-	\$ -	\$ 202,561
Mary March Property (i)	683,678	12,485	-	-	696,163
McFauld's Lake (i)	2,725	-	-	-	2,725
	\$ 888,964	\$ 12,485	-	\$ -	\$ 901,449

- (i) Refer to Note 5 of the audited June 30, 2010 financial statements for details of interests in mineral properties and deferred exploration expenditures.
- (ii) On July 21, 2010, the Company was advised by their legal counsel that the Mary March hearing, scheduled for July 19, 2010, has been postponed until further notice.
- (iii) During the three and six months ended December 31, 2010, the Company received 500,000 shares of On-Strike Gold Inc. ("On-Strike") in accordance with the terms of the Mining Option agreement signed February 16, 2010. The underlying shares were ascribed a fair value of \$95,000. Accordingly, the net proceeds of \$95,000 were recorded as other income on the Company's statement of operations

6. CAPITAL STOCK, OPTIONS, AND WARRANTS

- (a) Authorized:
Unlimited number of common shares

- (b) Issued:

	Shares	Amount
Balance, June 30, 2010	64,826,713	\$ 6,897,919

Balance, December 31, 2010	-	\$ -

Canstar Resources Inc.
(A Development Stage Enterprise)
Notes to Interim Financial Statements
Three and Six Months Ended December 31, 2010
(Expressed in Canadian Dollars)
(Prepared by Management)
(Unaudited)

7. BASIC AND DILUTED LOSS PER SHARE

The loss per share figures have been calculated using the weighted average number of common shares outstanding during the respective periods. Basic loss per share is computed by dividing earnings by the weighted average number of common shares outstanding for the period.

8. RELATED PARTY TRANSACTIONS

Included in accounts payable at December 31, 2010 is \$4,345 (June 30, 2010 - \$4,345) owed to a corporation controlled by a director of the Company. This amount is non-interest bearing, unsecured, with no fixed terms of repayment.

Include in accounts payable and accrued liabilities at December 31, 2010 is \$15,075 (June 30, 2010 - \$2,625) accrued for accounting services to a firm of Chartered Accountants of which one of the directors is a former partner. This amount is non-interest bearing, unsecured, with no fixed terms of repayment.

During the three and six months ended December 31, 2010, the Company incurred \$1,500 and \$3,000 respectively (three and six months ended December 31, 2009 - \$1,500 and \$3,000), for rent from Geocanex Limited. The Chairman and director of Canstar is the President of Geocanex Limited.

The above transactions were in the normal course of operations and were measured at the exchange amount which is the amount of consideration established and agreed to by the related parties and does not exceed the arm's length equivalent value for these services. Amounts owing to or from related parties are subject to normal trade payment terms.

9. COMPARATIVE FIGURES

Certain comparative figures have been reclassified to conform to current period financial statement presentation.
